Write your views to them on all important local, national, and international legislation to come up for vote before them. Express yourself frankly and with force. They need your letters. They are away from home and many times under wrong influence. Do not hesitate to write them many times a year strengthening their hand and giving them the advantage of your good judgment and common sense. Guide them with good old-fashioned, home-town logic and help save America from pitfalls which daily threaten our constitutional rights.
